

# SILVER STREAM RAILWAY

## LITTLE C FUNNEL & RESTORATION FUND

### HELP RETURN OUR C CLASS LOCO TO ITS ORIGINAL CONDITION

Silver Stream Railway are currently restoring our C class saddle tank locomotive built by Dubs and Co of Glasgow in 1875

After being a regular performer on the SSR from 1984 until 2008 the locomotive was withdrawn from service for a major overhaul

This has seen the boiler undergo extensive repairs and complete tubing. The chassis has been completely striped and any worn parts replaced or repaired

The overhaul is now in the reassembly stage and we need your help to purchase a new original style funnel (we have the patterns for the casting) and also new boiler cladding and lagging.

Please contribute to the Little C Funnel and Restoration Fund to assist in returning this historic locomotive to steam in 2011

Any Donation you wish to make would be gratefully received. Remember any donation over \$5 is tax deductible.

For further information check our website
